

Economy

- build stronger economy
- promote and create American jobs
- focus on alternative energy and clean resources
- limit imports and protect American economy

Immigration

- focus immigration policies on allowing people to come, that do it the right way
- promote highly educated immigrants to U.S.
- allow legal immigrants to fill a need in labor force

Military

- U.S. military needs to be reserved for a strong defensive force
- The U.S. military can be used to spread American influence, as needed
- U.S. nuclear arsenal should be deployed in EXTREME circumstances
- Focus on a modern military with the use of technology

Environment

- U.S. should set a path of good example for the rest of the world
- Focus on solar, hydro, wind and geothermal technologies/energy resources
- Reduce landfill use, and promote recycling programs

Foreign Relations

- Begin to help key countries around the globe, that could begin to help other nations
- Focus our efforts on education and aids (financial, medical, cultural, etc.)
- The expectation of these countries would be to develop help for other nations
- With global cooperation, this can begin to address global health concerns

Closing

We feel that if we can address these issues, it will create an environment for equality, and freedom of religion, speech, choice, etc.
