

4: Investigating Key Questions

Instructions: Work together as a group to research each of your key questions. You should find two or three articles from different media sources that will help you answer your questions. Provide a brief answer to each of your group's key questions below. Be prepared to share your findings with the class. In addition to answering your questions, record other things you learn during the research process that you think are important in the "Additional Key Information" section below.
